Sydney International Airport Terminal 1 Arrival Instructions

The allocated minibus or coach will be stationed in the designated holding area near the long-term car park adjacent to the Domestic Terminals, approximately ten minutes from the passenger collection point. Once all passengers have collected their luggage and are ready to depart, you should contact the driver and proceed to the Bus and Coach pickup area. Upon receiving your call, the driver will travel from the holding area to the authorised pickup point.

Passengers are to exit the terminal at ground level, turn right, and follow the signage to the relevant pickup zones where the minibus or coach will arrive or be waiting. The pickup areas for both vehicle types are clearly signposted. The coach pickup zone is located beneath the overpass, while the minibus pickup area is positioned immediately adjacent to the coach bays and opposite the Rydges Hotel.
